Engineering Change Notice (ECN) for PSA071040

Date: December 3rd, 2024

Subject: Product Sensitivity Adjustment – New Specification for Shipments after October 24, 2024

Dear Valued Customer,

We are notifying you of an upcoming change to the sensitivity specification of our product. This adjustment, implemented to meet the specific application requirements, will affect products manufactured from **October 24, 2024**, onward.

1. Sensitivity Change Details

- For products manufactured **before October 24, 2024**: Typical sensitivity will remain at **135mV**.
- For products manufactured **on or after October 24, 2024**: Typical sensitivity will change to **approximately 80mV**.

2. Lead Time for First Orders

- Due to the production adjustments required for this change, lead times for initial orders with the new sensitivity specification will be longer than usual. We are working to optimize our process to minimize any delay.

3. Updated Specifications Release

- Once finalized, we will provide an updated specification document detailing this change.

4. Recommended Action

- For questions or support related to this transition, please contact our support team.

We appreciate your understanding and cooperation as we implement this improvement.

Sincerely,

Neha Kumari

Neha Kumari
